REFORMING CRIMINAL JUSTICE: A CHRISTIAN PROPOSAL

Matthew T. Martens

In Luke 10:27, Jesus tells his followers that the whole law is encapsulated in the commands to love God and to love their neighbor as themselves. In *Reforming Criminal Justice*, Matthew T. Martens argues that love of neighbor must be the animating force for true reformation of the criminal justice system. We must ask, how does Scripture guide our love for both the criminally victimized and the criminally accused?

Fresh Appraisals of Significant Issues Related to the Interpretation of Romans

A collection of essays presented during the Consultation on Paul's Letter to the Romans at four annual meetings of the Evangelical Theological Society ('18, '19, '21, '22)

"I am impressed by the quality of all the contributions to this volume, which in many cases offer new, well-considered approaches to the major sections of the letter, including matters of interpretation that have long occupied the minds of scholars."

HOPE FOR GOD'S CREATION: STEWARDSHIP IN AN AGE OF FUTILITY

Andrew J. Spencer

~~\$24.99~~ **\$14.99** // 9781087751474

In *Hope for God's Creation*, Andrew Spencer develops a Christian vision for creation care that is rooted in the goodness of the physical world and the hope for new creation. Spencer demonstrates that a hopeful and realistic environmental ethic is a natural result of an orthodox, evangelical theology. An accessible, biblical, and winsome guide, Spencer's work invites the reader to consider stewardship as a way of life and an act of worship.

NATURAL LAW: A SHORT COMPANION

David VanDrunen

~~\$19.99~~ **\$11.99** // 9781087775418

In *Natural Law: A Short Companion*, David VanDrunen explores God's general revelation of moral principles as a biblical foundation for ethical conversations. A helpful introduction that primes the evangelical imagination for defending and demonstrating the importance of natural law in the public square, this book will greatly benefit pastors, students, and laypersons alike.

HUMANITY

John S. Hammett & Katie J. McCoy

~~\$34.99~~ **\$20.99** // 9781087730158

Humanity is built on four assumptions: that humans are creatures, that they can only be understood in light of the intentions of their Creator, that the Creator's intentions are revealed in the pages of Scripture, and that humans enjoy a truly and fully human life only when they live in accordance with their created nature. Thus, this work seeks to offer a biblical perspective on human nature as designed by God.

A singularly powerful and rigorous argument in favor of modern substance dualism

In *The Substance of Consciousness: A Comprehensive Defense of Contemporary Substance Dualism*, two distinguished philosophers deliver a unique and powerful defense of contemporary substance dualism, which makes the claim that the human person is an embodied fundamental, immaterial, and unifying substance. Multidisciplinary in scope, the book explores areas of philosophy, cognitive science, neuroscience, and the sociology of mind-body beliefs.

The authors present the most comprehensive, up-to-date, and rigorous non-edited work on substance dualism in the field, as well as a detailed history of how property and substance dualism have been presented and evaluated over the last 150 years. Alongside developing new and updated positive arguments for substance dualism, they also discuss key metaphysical notions and distinctions that inform the examination of substance dualism and its alternatives.

Readers will also find:

- A thorough examination of the recent shift away from standard physicalism and the renaissance of substance dualism
- Comprehensive explorations of the likely future of substance dualism in the twenty-first century, including an exhaustive list of proposed research projects for substance dualists
- Practical discussion of new and rigorous critiques of significant physicality alternatives, including emergentism and panpsychism.
- Extensive treatments of philosophy of mind debates about the roles played by staunch/faint-hearted naturalism and theism in establishing or presuming methodology, epistemic priorities, and prior metaphysical commitments

Perfect for professional philosophers, *The Substance of Consciousness* will also earn a place in the libraries of consciousness researchers, philosophical theologians, and religious studies scholars.

The digital typeface retains the elegance of traditional Bible lettering, while offering the clarity of reading provided by modern fonts.

The text is arranged in paragraph format and supported by center-column cross-references, a comprehensive concordance, and 15 color maps. The Diadem hardbacks are printed on high-quality Bible paper, fully sewn for flexibility and strength.
